Thus maximum percentage increase in general electors was in Jodhpur Division whereas minimum percentage increase was in Bikaner Division. The number of electors can also be analysed on the basis of population.

Following table gives division wise analysis of electors in comparison to their projected population as on January 2008: -

(In lakhs)

Division	Projected Population as on 1st January 2008			Electors as on 17.11.2008			Electors Per 1000 Population

Total	345.31	316.65	661.96	189.84	171.89	361.83	550	543	547

Thus the percentage of electors to the total population is 54.7% only. The percentages of men & women electors to their respective populations are almost equal.

5. POLLING STATIONS

Under Section 25 of the R. P. Act, 1951 the District Election Officer is responsible for providing polling station and the publication of the list of polling stations. The polling stations are also set up more or less on a permanent footing, covering well defined polling areas. The polling stations are set up on the criterion (1) Number of electors assigned to polling station (2) Distance to be traveled by electors (3) Vulnerability.

Before delimitation of the constituencies there were 35822 polling stations in the state. After delimitation, the rationalization of polling stations was undertaken as per direction of the ECI on the following criterion -

- I. Each village with its own polling station provided the village has more than 300 electors and is having a suitable building for setting up of polling station and
- II. On account of any existing vulnerability observed.

Proposals for polling stations were prepared by DEOs. After getting approval of ECI the lists of polling stations were published by concerned District Election Officer. The number of polling stations increased to 42212 before Vidhan Sabha election 2008, 379 auxiliary polling booths were also setup. To facilitate electors to exercise their franchise during Vidhan Sabha Election 2008. Six mobile polling stations were made in district Jaisalmer. The list of polling stations were also provided to contesting candidates.

5.1 Comparative Position with respect to last Assembly General Election-2003

There were 339.29 lakh electors in 2003-Assembly General Election and 35705 polling stations. Average number of voter in a polling station was 950. Presently the number of electors has increased to 362.73 lakh and number of polling stations has increased to 42591. Average number of electors in a polling station has now become 850. If 2003 Assembly General Election data are compared with the data of Assembly General Election-2008, then despite increase in the number of electors by 6.91% (from 339 lakh electors to 362 lakh electors), the number of polling stations has increased by 19.28% (from 35,705 to 42591).

Following table gives the average number of electors per polling stations from 1998 General Election onwards: -

6. Electors Photo Identity Cards

The Election Commission of India issued notification on 28th August, 1993, directing that the Elector photo Identity cards (EPIC) shall be issued to all eligible electors to prevent Impersonation during poll and to facilitate their identification at the time of poll. The programme for preparation and distribution of Elector photo identity card was started in 1995. The State Government had issued orders for treating the Electors Photo Identity Card as a means of Identification in all schemes, programmes and for all purposes in the Government. This is also commonly accepted as a means of Identification by other agencies also.

Five phases of EPIC preparation were completed before 31st March, 2008. Total EPIC holders were 279 lakhs while the total general electors were 353 lakhs. To maximize the percentage of EPIC holders, sixth phase was started from 12th May, 2008. Upto Assembly General Election 2008, four intensive rounds were organized. Permanent camps were setup at district HQs for preparation of EPICs. EPICs prepared upto 30.08.2008 were incorporated in the electoral roll through first supplement appended with the electoral roll at the time of its final publication. While EPICs prepared upto 8th Nov., 2008 were incorporated in the roll through second supplement prepared during continuous updation, remaining images were included in referral image sheets which were supplied to polling parties for use at the time of poll.

The total number of electors who were issued EPIC and whose EPIC numbers were entered in the Rolls increased to 321.23 lakhs. Total number of electors was 361.83 lakhs. Thus the percentage of electors having their EPIC number as per entry of EPIC number in database of Electoral Rolls-2008 is 88.78%.

The distribution of EPIC varies widely from 90.39% in District Hanumangarh to 76.86% in district Kota. Following table gives division wise analysis of Electors & EPIC Issued till the General Election-2008 to the State Assembly of Rajasthan:

S. No.	Division	General Electors	EPIC 2008	Percentage of Electors having EPIC

8. Human Resource Management

8.1 Appointment of ROs/AROs -

The Commission appointed 200 Returning Officers for all the 200 Assembly Constituencies. List of ROs is available as **Annexure-7**.

In addition the Commission also appointed the AC which lies, wholly or in part, in a revenue district, the Deputy District Election Officer of that district as the Assistant Returning Officers, to assist the Returning Officer of that Constituency in the performance of his functions.

8.2 Sector/Zonal Officer -

As per direction of the Commission, Sector Plan was prepared in the district. Sector Officer was appointed in each sector. Amongst other duties these Sector Officers were provided Power of Special Executive Magistrate to maintain Law & Order during elections. Total 4513 Sector Officers were appointed in the State.

8.3 Observers and Micro Observers -

During Vidhan Sabha General Election, 2008 total 200 Observers were appointed by the Election Commission of India. These Observers also monitored the expenditure of the candidates. No separate expenditure observer was appointed.

Micro Observer -

5839 Central Government Employees & CPSU employees were appointed as Micro Observers on random basis. Due to shortage of officers in some districts, officers from Jaipur were also deployed for micro-observer duty. The trainings of these Micro Observers were organized by concerned DEO. They were trained properly by the Observers on the relevant and crucial issues. These MOs worked under the Observers appointed by ECI. These Micro Observers were deployed on Critical Polling Stations in consultation with the ECI's Observers. These Micro Observers were responsible to Observers. The check list for the Micro Observer is appended as **Annexure-8**.

8.4 Drafting and Training of polling personnel-

A data base of all eligible poll personnel was maintained in electronic format by DEOs. Software was prepared with the help of National Informatics Centre at state level and was provided to all District Election Officers. Database included personnel both from State Government Departments as well as the Central Government offices. Central Government employees were utilized for micro Observers

duties as decided by Observers. Polling parties were formed out of State Government employees of the concerned districts. As per directions of the Commission DEOs were instructed that persons put on polling duties should invariably be voters and further no person should be assigned polling duties in an assembly segment in which he is posted or in which he resides or the assembly segment which is his/her home constituency. Some DEOs like Pratapgarh, Jaisalmer and Barmer raised practical problems in drafting of polling parties in pursuance of these directions.

These districts were given relaxation in drafting of polling parties as follow as-

1. Relaxation of posting place
2. If still this is not possible to draft the polling parties in sufficient number then relaxation in the restriction of residence
3. If after giving the above said relaxations it is not possible to draft polling parties then it was directed for the formation of polling parties consisting of one PrO and two Polling officers for the polling stations where there were electors less than 500.

8.5 Randomization of polling personnel-

Following three stages of randomization process were taken for the formation of polling parties -

First Stage - Randomization - From full database of officers a list of 120% of the required numbers of polling personnel was generated using the software. Presence of the Observers was not required at this stage. This was only to identify and select officials that were to be given training for all duties as Presiding and Polling Officers in whichever constituency of the State. All the polling personnel were able to know at this stage whether he or she was a presiding officer or a polling officer and the venue and time of the trainings.

Second stage of randomization exercise was done in the presence of Observers deployed in the constituency. At this stage actual polling parties were formed on random basis using the randomization software. At this stage actual polling station was not known.

Third stage of randomization exercise was under taken for final allocation of polling stations to each polling party in the presence of Observers. As per instructions of the Commission, the third stage randomization process was to take place at the time of dispersal of polling parties but due to practical problems in distribution of election duty certificates to polling personnel and other election arrangements,

a relaxation was obtained from the Commission to take third stage randomization on one day before departure of the polling parties.

8.6 Training of Polling Personnel –

A uniform calendar was prepared and issued by the Chief Electoral Officer for training of polling personnel in all districts. Training material was prepared at State level and distributed to all DEOs in the form of "CEO Training Kit". This step was helpful in maintaining uniformity in the State. Three trainings were imparted to polling parties. All DEOs were instructed to impart training to polling personnel in a group of 50 persons by using Power Point Presentation mode. A model test paper was also prepared at the State level and was supplied to DEOs. During the second training the test of polling personnel was taken through this paper. A training of third polling officers was also organized to familiarize them with the EVMs.

8.7 Training of other officials related to Election -

A uniform calendar for all trainings was prepared at state level and was circulated to all districts to maintain uniformity in the whole state.

Training to all Returning Officers, Assistant Returning Officers and Senior Police Officers were imparted at Divisional Headquarters.

Master Trainers for EVM training for all the districts were trained at state level. These Master Trainers trained resource persons to impart trainings in Assembly Segments. Master Trainers for Videography at Polling Stations, were also trained at state level who in turn trained Supervisors/ Videographers in the state.

Training to Police Personnel and Magistrates were also organized at district level.

9. Material Management

9.1 EVMs –

The Election Commission of India ordered that General Election, 2008 to RLA will be conducted by using EVMs. A total of 50050 EVMs were available in the State. 19000 EVMs were transferred from Gujarat by the Commission. Thus total 69050 EVMs were available before elections which were sufficient to meet the requirement during Vidhan Sabha General Election 2008.

The first consignment of 7000, BEL (Old Model) EVMs was received in the State in 1990 from the Election Commission of India. One EVM can register up to 3842 votes. However the Commission has fixed optimum number of elector in a polling station as 1600. Therefore only less than half of the capacity is used during Elections.

9.2 Use of Electronic Voting machine prior to Assembly General Election-2008

These machines have been used since 1998 for Elections and Bye-Elections for Parliamentary/ Assembly Constituencies. In 1998 General Assembly Elections, Election was conducted through EVMs for the first time in five Assembly Constituencies of the State. During Parliament Elections 1999, Election was conducted through EVMs for the first time in Ajmer & Jaipur Parliamentary Constituencies of the State. After this Electronic Voting Machines were used in all Bye-Elections to Assembly / Parliamentary Constituencies. The details in this regard are as follows: -

S. No.	Name of the Election	Assembly / Parliamentary Constituencies
1	1998 General Assembly Election	1. Hawamahal, 2. Johri Bazar, 3. Kishanpole 4. Ajmer East & 5. Ajmer west
2	1999 Assembly Bye Election	Sardarpura
3	1999 Lok Sabha General Election	1. Ajmer 2. Jaipur
4	2000 Lok Sabha Bye Election	Dausa
5	2000 Assembly Bye Election	Lunkaransar
6	2001 Assembly Bye Election	Hindoli
7	2001 Lok Sabha Bye Election	Tonk
9	2002 Assembly Bye Election	1. Ajmer West 2. Sagwara, 3-Bansur & 4- Ball
10	2003 Assembly General Election	All 200 Assembly Constituencies
11	2004 Lok Sabha General Election	All 25 Parliamentary Constituencies
12	2008 Assembly General Election	All 200 Assembly Constituencies

9.3 EVM preparation-

EVM had been used in the State in Vidhan Sabha General Election, 2003 & Lok Sabha General Election, 2004 was also conducted by using EVMs.

9.4 Training and awareness-

Comprehensive action plan for imparting to train the election staff and others and to create awareness among the electors about the use of EVMs was prepared and implemented by the Department. Before Vidhan Sabha General Election 2008 four officers from each district as master trainers were imparted training regarding the functioning of EVMs. These officers imparted training to 5 or 6 trainers for each Assembly Constituency. Who in turn imparted trainings to BLOs. An awareness campaign was organized in all districts to make aware voters about the functioning of EVMs. Booth Level Officers gave demonstration of EVMs for 2 days at every polling booths in the month October & November, 2008.

The documentary films on use of EVMs for polling were exhibited for general public in villages and cities. The Directorate of Field Publicity also exhibited films on EVMs in rural areas. This was also shown on Regional network of Doordarshan. Posters and pamphlets were printed and sent to districts for display. Posters were also put up at important places in the Constituency including educational institutions, important buildings, market places, public places and polling stations.

9.5 Checking and preparation of Electronic Voting Machines-

First Level Checking was carried by the BEL engineers at the District HQs. For coordinating all activities connected with the first level checking, DEO nominated a nodal officer. A database of CUs and BUs verified and certified was prepared separately. Software for randomization was prepared by NIC and supplied to DEOs. First randomization of CUs/BUs for distribution to ACs was carried in the presence of the representative of the recognize political parties. In this randomization CUs/BUs were randomly selected by grouping them to support a requirement including reserves for each constituency. The surplus CUs/BUs were also randomly grouped and distributed AC wise for the purpose of training (for training of polling staff as well as for the purpose of voter awareness). A sticker of red color was affixed at the front side of the ballot unit/control unit set aside for training purpose and green sticker was affixed on the EVMs to be used at polling stations including reserves. This first randomization was done before the start of training of polling personnel.

EVMs were prepared in the presence of the contesting candidates for use in the election at polling booth.

Second randomization was done by the RO for the AC to allot the CUs/BUs to specific polling station in the presence of candidate or his agent or authorized representative and in the presence of observer.

During Vidhan Sabha General Election-2003, 395 Machines were replaced before the start of poll. Only 8 machines stopped working during the polling process. Moreover 3 machines were broken by unruly elements during poll. The following table gives details of electronic voting machines prepared, used and replaced before and during the General Election, 2003:

Requirement of other materials such as paper seals, arrow cross mark, rubber stamps indelible ink, outer strip paper seals for control unit of EVM. Power pack for EVMs, symbol blocks, special tags and address tags were timely assessed and all materials were made available to the districts in time.

9.10 Procurement of other election material by Districts -

The districts were given the list of material which were to be supplied by the CEO and the list of material to be procured at their level. Purchase committees were constituted in the districts. District Election Officers procured these election materials at their own level and make them available to polling parties.

However, postal authorities were being instructed by the Commission to deliver the postal ballot paper before the date and time of counting. But there were complaints in some places that postal votes could not be delivered before the time of counting.

10. Logistics Management

10.1 Transportation -

Sector Officers were deployed in the field from the date of announcement of schedule for the election. To ensure their mobility, vehicles were provided to them. For transportation of polling personnel to polling booths, the requirement of the vehicles was assessed by the DEOs well in advance. Required numbers of vehicles were requisitioned by the DEOs. Transportation of polling parties was done in a smooth manner check posts were setup at different locations for monitoring of their transportation. No complaint of not arrival of the parties at the polling stations, was received. The required vehicles for police mobiles were also provided by the DEO. The amount of compensation paid to requisitioned vehicles was increased substantially comparatively in last Vidhan Sabha General Elections-2003. Polling parties were dispatched with EVMs and other election material from the district HQ of concerned DEO. After poll polling parties returned to same HQ and deposited the material back. Rate of Travelling allowance of polling personnel was increased more than double that of rates during last Vidhan Sabha General Elections, 2003. Out right payment to polling personnel was increased more than 1.5 times that of previous General Election, 2003. Polling personnel were highly satisfied with these payments and this increased their dedication to poll duties. The polling personnel were strictly instructed not to accept hospitality of any politician/ local authority. Booth level officers were deployed for necessary arrangements at polling booths and to assist polling parties.

11. Nomination, Scrutiny and allotment of symbols

H. E. the Governor of Rajasthan issued notification on 10th November, 2008 for calling the people to elect members of Vidhan Sabha for the State of Rajasthan. The last date for withdrawal of candidature was 20th November, 2008.

The Commission authorized 10 recognized parties of other States to use their symbols in the General Elections to the Vidhan Sabha in State of Rajasthan. This information was immediately conveyed through Fax, Email and Camp bag to Returning Officers. However, candidates of only 9 recognized political parties of other States contested current Vidhan Sabha Election in Rajasthan using their reserved symbols. Symbols were allotted and list of contesting candidates were finalized and published on 20th November, 2008.

3181 candidates filed nomination forms for candidature in the Vidhan Sabha General Elections-2008. The nomination forms of 309 candidates were rejected at the time of scrutiny. Moreover 678 candidates withdrew their candidature. Therefore, 2194 candidates remained in fray for the elections. Out of these 2194 candidates, 686 candidates were from recognized National Political Parties, 483 candidates were from recognized State Political Parties of other States and registered but unrecognized Political Parties. This order of the Commission prescribing identification of elector before permitting him to vote was widely publicized. The copy of the order was immediately given to all political parties, Returning Officers and District Election Officers for wide publicity at their levels. This information was further transmitted through print and electronic media. Advertisements were published twice in leading State level newspapers. 2.25 lakh posters were printed depicting the requirement of compulsory identification by documents at the time of voting along with the list of documents prescribed by the Commission. These posters were displayed at important places in urban and rural areas and also outside the polling stations. - Whether helplines to facilitate a voter to identify his particulars are in place. Do they work?
- Is the CEO/DEO website provided with search facility? Name wise or AC wise? Is it user friendly?
- What is the status of electoral roll preparation?
- Control tables are the tables in which the basic information and details of the rolls are kept so that electoral roll can be properly generated through computerized means. What is the status of control tables? Have they been populated? All the prescribed tables or a few?
- Whether BLOs are in place? Further check whether they are maintaining records of their field visits. Crosscheck, on random basis, to assess quality and veracity of field works done by them.
- Whether copies of published electoral roll have been shared with political parties? Check for acknowledgement receipts obtained from them.
- Whether Involvement of political parties and NGOs, etc. is there. If so, when a meeting with them was called and their views ascertained. Check for the minutes of such meetings.
- What is the revision schedule for revision of electoral roll? Is it keeping in time schedule decided by the Commission?
- To assess fidelity of the electoral roll and grievances level, please check for complaints received directly or forwarded from CEOs office, in this regard? Whether the complaints also include newspaper / media reports. How the complaints have been verified by EROs and the DEO?
- Whether proper record is maintained of the complaints received? Get from the DEO a tabular statement mentioning, *Inter-alia*, whether the complaints are inquired into, if so what are the findings. Do a random check of a few complaints on a random basis and record your views/findings.
- Whether the roll been checked to see that names of MPs/MLAs, and other, leading personalities are in the electoral roll?
- Whether multi-layered checking by DEO, ERO, AERO and BLO has been carried out on the quality of rolls? (BLOs are to 100% verify the additions/deletions; The EROs 3% and the DEOs 1%)

- Whether statistical inputs (in eight tabular statements in Annexures 2.2 to 2.9 to the handbook for Electoral Registration Officers, 2008 edition) on existing electoral roll's health have been prepared for each district, constituency and polling stations levels. These inputs need to be analyzed statistically for each constituency with the district data and the State data, (wherever needed at polling station levels also). Certain abnormal figures/trends may come to your notice. Get them examined and record your findings.
- A comparison of the data for elector / population ratio for ascertaining under or over enrollment will be helpful;
- Age cohort wise ratio similarly will reveal the quality of enrollment process and focus area for further cleansing of voter rolls;
- Gender Ratio should be checked, where needed, polling station wise. Ask BLOs to re-visit and verify the female electors if sex ratio in any polling station is significantly high. Also check if Patwari or any other village authority maintains marriage registers and see whether females who got married to different villagers have been properly accounted for.
- Check for In-migration out-migration patterns. That may have bearing on all these;
- Similarly a study of addition (By Form 6), deletions (By Form 7 or done suo-moto) etc may also be done. In all such cases if the same cannot be justified with a proper explanatory notes, necessary remedial actions by EROs should be ensured.

- In each constituency, test-check the inclusions in the first 20 polling stations with highest inclusions and get them re-verified by BLOs.
- Check the quality of disposal of claim forms.
- Check whether in the Inclusion form (Form - 6) of voters above 25 years of age, the previous address has been mentioned or not?
- Check whether EROs of the area concerned where the applicant of Form 6 was earlier residing has been intimated that by the ERO of the present AC so as to eliminate any chance of double registration at two places.
- Check the documents accepted for Inclusion of new voters (18-25 agegroup)
- In border areas with other states, check that there is no double

enumeration of voters in two states.

- Are there households with more than 10 voters? They should be test checked.
- In case of deletions, check for districts with +1% variation from state average and also for such LAC with +1% variation from district average. In each constituency, test-check the inclusions in the first 20 polling stations with highest deletions and get them re-verified by BLOs.
- Whether the de-duplication has been carried out using computer software? Check with lists generated. How the lists have been acted upon?
- Check deletions due to death, shifted or duplicated entries. Are suo-moto deletions done? Have the procedures been followed? (Please verify by checking records that notices were served in all cases of deletions except in confirmed death cases)
- Check how many shifted electors with family linkage and how many without family linkage have been deleted?
- How many EPIC holding voters have been deleted? Can they be listed and test verified?
- All records pertaining to electoral roll revision and continuous updating of the roll have to be maintained till next intensive revision. Are they properly kept for easy retrieval?
- The roll published should be compared, on random basis, with manuscripts, and serious mistakes pointed out.
